

A co-educational day school for pupils aged 3 - 18

Senior School Presentation September 26th

During the presentation earlier this week I promised to send you the links to the article I referred to during my talk as well as useful links regarding the examination system and university entry. Therefore at the end of these notes are the links as promised. For those of you who were unable to attend the following areas were covered:

The British Curriculum

- The British curriculum and examination system how it is delivered
- Qualifications of Staff in the International Section
- Assessment in the British system
- Ensuring children can apply knowledge and understanding; become creative thinkers; are able to problem solve and they are educated for the 21st century.
- The differences between the British and Egyptian system
- Understanding that this school is not an 'exam factory'

Trust Us

- We do know what we are doing - we are all professionals
- Accept our advice regarding your child - we want the best for them too
- If we say there is a problem - believe us and do not blame others

The success of your child depends on the home and the school working together. I hope you enjoy reading the information.
